

CPB SEMINAR SERIES – WINTER QUARTER 2018

When: Tuesdays, 4:10 - 5:30PM

Where: 1022 Life Sciences

PBG 290 – CRN 65604

Schedule as of 1/10/18

January 9, 2018 – J. Arvid Agren

Postdoctoral Scholar, Clark Lab, Cornell University

Title: Causes and consequences of genomic conflicts

Hosts: Nancy Chen, nanchen@ucdavis.edu

January 16, 2018 – Kathy Toll

Graduate Student, Willis Lab, Duke University

Title: Mechanisms of habitat segregation between co-occurring monkeyflower species

Host: Katie Ferris, kgferris@ucdavis.edu

January 23, 2018 – Catherine Rushworth

CPB Postdoctoral Fellow Search Candidate

Title: The evolution of reproductive variation in natural populations

Hosts: David Begun, djbegun@ucdavis.edu, and Artyom Kopp, akopp@ucdavis.edu

January 30, 2018 – Matthew Osmond

CPB Postdoctoral Fellow Search Candidate

Title: Evolutionary rescue: integrating ecological and evolutionary theory

Hosts: David Begun, djbegun@ucdavis.edu, and Artyom Kopp, akopp@ucdavis.edu

February 6, 2018 – Michael Moore

CPB Postdoctoral Fellow Search Candidate

Title: Midlife crises: Causes and consequences of fitness trade-offs across the life cycle

Hosts: David Begun, djbegun@ucdavis.edu, and Artyom Kopp, akopp@ucdavis.edu

February 13, 2018 – Sara Jackrel

CPB Postdoctoral Fellow Search Candidate

Title: TBA

Hosts: David Begun, djbegun@ucdavis.edu, and Artyom Kopp, akopp@ucdavis.edu

February 20, 2018 – Tad Dallas

Postdoctoral Scholar, Hastings Lab, UC Davis

Title: The influence of stochasticity on competition, coexistence, and spatial spread

Host: Alan Hastings, amhastings@ucdavis.edu

February 27, 2018 – Thomas Jenkinson

NSF Postdoctoral Fellow, Rosenblum Lab, UC Berkeley

Title: Cryptic diversity and secondary contact between amphibian-killing chytrid lineages

Host: Katie Ferris, kgferris@ucdavis.edu

March 6, 2018 – Ellen Simms

Professor, Integrative Biology, UC Berkeley

Title: TBA

Host: Katie Ferris, kgferris@ucdavis.edu

March 13, 2018 – Molly Womack

NSF Postdoctoral Fellow, Bell and Rosenblum Labs, Smithsonian and UC Berkeley

Title: Lessons from 'earless' frogs on developmental bias and sensory ecology

Host: Katie Ferris, kgferris@ucdavis.edu

March 20, 2018 – Elias Oziolor

Postdoctoral Scholar, Whitehead Lab, UC Davis

Title: Evolutionary toxicology: Physiology and genomics of adapted Gulf killifish (*Fundulus grandis*) populations in response to a gradient of pollution

Host: Andrew Whitehead, awhitehead@ucdavis.edu

March 27, 2018 – TBA
