SEPTEMBER 27, 2022: ANYA BROWN
Assistant Professor, UC Davis
Title: Ecology of extended phenotypes: stressor effects on coral hosts and their microbes
Host: Jay Stachowicz, jstachowicz@ucdavis.edu

OCTOBER 4, 2022: JUSTIN LUONG
Postdoc, Funk Lab, UC Davis
Title: Grassland restoration increases native plant cover, but interviews indicate only a subset of regionally available species are used
Host: Jen Funk, funk@ucdavis.edu

OCTOBER 11, 2022: EVAN JOHNSON (Exit Seminar)
Graduate Student, Hastings Lab, UC Davis
Title: Why are population dynamics boring?
Host: Alan Hastings, amhastings@ucdavis.edu

OCTOBER 18, 2022: TALI MAGORY
Postdoc, Bay Lab, UC Davis
Title: The impact of mercury pollution on birds in the Peruvian Amazon
Host: Rachael Bay, rbay@ucdavis.edu

OCTOBER 25, 2022: LAURA BOGAR
Assistant Professor, UC Davis
Title: Symbiosis under stress: How do tree roots and soil fungi cooperate when resources are scarce?
Host: Jen Funk, funk@ucdavis.edu

NOVEMBER 1, 2022: MICHAEL BURNS
Postdoc, Wainwright Lab, UC Davis
Title: Using new tools and diverse fishes to answer old questions in evolutionary biology
Host: Peter Wainwright, pcwainwright@ucdavis.edu

NOVEMBER 8, 2022: BERNARD KIM
Postdoc, Stanford
Title: Population genomics at the scale of an entire family (Drosophilidae)
Host: Artyom Kopp, akopp@ucdavis.edu

NOVEMBER 15, 2022: DAAN MERTENS
Postdoc, Karban Lab, UC Davis
Title: Anticipating the future: How predictability of biotic stress shapes plant defence evolution
Host: Rick Karban, rkarban@ucdavis.edu

NOVEMBER 22, 2022: LLUVIA FLORES-RENTERIA
Assistant Professor, SDSU
Title: The pinyon sygameon accelerated speciation in the Southwest
Host: Mitra Menon, mbenomen@ucdavis.edu, and Rachel Thayer, rcthayer@ucdavis.edu

NOVEMBER 29, 2022: CPB Postdoc Search Faculty Meeting
Host: Graham Coop, gmcoop@ucdavis.edu
