PBG 290 – CRN 35662

Schedule as of January 14, 2021

January 5, 2021 – Silu Wang

Postdoc, Bachtrog Lab, UC Berkeley

Title: Genomic contributors of speciation: insights from nascent species boundaries

Host: Graham Coop, gmcoop@ucdavis.edu

January 12, 2021 – Samantha Worthy – CPB Postdoc Candidate

Graduate Student, University of Maryland

Title: Integrating plant form, function, and demographic variation to understand emergent patterns of species distributions and community composition.

Hosts: Jenny Gremer, jrgremer@ucdavis.edu; Susan Harrison, spharrison@ucdavis.edu; Andrew Latimer, amlatimer@ucdavis.edu

January 19, 2021 – April Martinig – CPB Postdoc Candidate

Graduate Student, University of Alberta

Title: Not all risks lead to ruin: the long and short of dispersal

Hosts: Marissa Baskett, mlbaskett@ucdavis.edu; Kate Laskowski, klaskowski@ucdavis.edu

January 26, 2021 – Michael Yuan – CPB Postdoc Candidate

Graduate Student, UC Berkeley

Title: Convergence and divergence from populations to species: phenotypic evolution of Caribbean Anolis Lizards

Hosts: Rachael Bay, rbay@ucdavis.edu; Tom Schoener, tw schoener@ucdavis.edu; Peter Wainwright, pcwainwright@ucdavis.edu

February 2, 2021 – No Seminar - CPB Postdoc Search Faculty Meeting

Host: Graham Coop, gmcoop@ucdavis.edu; Sharon Lawler, splawler@ucdavis.edu

February 9, 2021 – Joanna Griffiths

Postdoc, Whitehead/Fangue Lab, UC Davis

Title: Natural variation and evolutionary responses to climate change stressors in marine invertebrates

Host: Andrew Whitehead, awhitehead@ucdavis.edu

February 16, 2021 – Rachel Thayer

Postdoc, Begun Lab, UC Davis

Title: Genetic basis and evolutionary context for structural color shift in the Buckeye butterfly

Hosts: David Begun, dj begun@ucdavis.edu

February 23, 2021 – No Seminar - PBG Admissions Faculty Meeting

Hosts: Brian Moore, brianmoore@ucdavis.edu; Santiago Ramirez, sanram@ucdavis.edu
